GerberColor **Process Pro™ – CMYK Foils – EDGE 1 & 2**

See page 8 for EDGE FX Process Pro Foils

Custom-formulated, resin-based, semi-gloss foils for four-color process prints, process color simulations of solid PANTONE® colors, EDGE Match™, and photographic bitmap reproductions. Th ree-year exterior life performance. Use with GerberColor Spectratone to produce additional colors. Warranted as specified when used on Gerber-approved EDGE READY™ materials.

Color	Pigment Code	Part Number
		45-meters
Process Pro Black	GCP 812	P76283A
Process Pro Cyan	GCP 807	P76282A
Process Pro Magenta	GCP 873	P76281A
Process Pro Yellow	GCP 805	P76280A

GerberColor **Transparent Foils – EDGE 1 & 2**

See page 8 for EDGE FX Transparent Foils

Custom-formulated, resin-based, transparent color foils will provide three-year exterior life performance. The unique transparent feature allows the characteristics of the base EDGE READY material to come through. GCT foils should be double-hit for best backlit results. Use with GerberColor Spectratone to produce additional colors. Warranted as specified when used on Gerber approved EDGE READY materials.

Color	Pigment Code	Part Number
		45-meters
Blue	GCT-617	P60397A
Brown	GCT-629	P60447A
Gold	GCT-105	P60442A
Green	GCT-116	P60452A
Grey/SpectraShade	GCX-111	P79102A
Orange	GCT-614	P60402A
Plum Purple	GCT-128	P60432A
Red	GCT-643	P60407A
Sapphire Blue	GCT-37	P60427A
Tomato Red	GCT-13	P60422A
White/SpectraTint	GCX-030	P79105A
Yellow	GCT-625	P60417A

GerberColor **Medal Foils EDGE 1 & 2**

See page 8 for EDGE FX Medal Foils

As the "medal" name implies, GCM foils produce images which have an elegant, polished metal finish. NOTE: Interior use only.
