Blockout Banner Material

Ultraflex blockout banner materials are compatible for use with solvent, eco-solvent, UV, Latex and screen-printers and come in a variety of thicknesses and sizes to meet your specific application requirements. The flexible blockout materials may be printed on both sides and used indoors and/or outdoors primarily for signs, banners, displays and general event graphics.

UltraBlockout® Banner Pro 20 oz.
UltraBlockout® Banner Pro 20 oz. is a durable banner material with color matching dual print surfaces allowing for consistent, double-sided printing. The blockout liner provides complete opacity making it an ideal product for free hanging indoor and short term outdoor banner applications in normal weather conditions. UltraBlockout Banner Pro 20 oz. is compatible for use with solvent, eco-solvent, UV and Latex inks. Available in 126" widths.

Outdoor Blockout LTX - 18 oz.
Outdoor Blockout LTX is a heavy duty banner material used for indoor and outdoor applications. The unique construction provides strength and stability under harsh weather conditions. Outdoor Blockout LTX is an 18 oz. material designed for two-sided applications. The material may be printed double-sided on Latex devices. Both sides of the material have a matte finish and are compatible for use with solvent, eco-solvent, UV and Latex inks. Available in widths from 38" - 196".

Pole Banner - 18 oz.
Pole Banner 18 oz. is a heavy duty blockout banner material for indoor or outdoor applications. The uniquely woven 1000 x 1000 scrim provides strength and stability under harsh weather conditions. Pole Banner 18 oz. is designed for two-sided applications where complete opacity is required. Both sides of the material have a matte finish and are compatible for use with solvent, eco-solvent, UV and Latex inks. Available in widths from 38" - 126".

Pole Banner Select - 18 oz.
Pole Banner Select is a double-sided, durable, blockout banner material designed for indoor or outdoor applications. The material offers a matte finish and is ideal for application where complete opacity is required. Pole Banner Select is compatible with solvent, eco-solvent and UV ink. Available in widths from 38" - 126".

UltraBlockout® Banner Pro 15 oz.
UltraBlockout® Banner Pro 15 oz. is a blockout banner material with a uniquely constructed dual print surface. UltraBlockout Banner Pro 15 oz. is engineered for high resolution, two-sided printing. The material is ideal for any indoor application where opacity is required. UltraBlockout Banner Pro 15 oz. is compatible for use with solvent, eco-solvent, UV or Latex inks. Available in widths from 54" - 126".

SuperSmooth™ Blockout - 15 oz.
SuperSmooth™ Blockout is a 15 oz. scrimless, blockout banner material. The smooth surface provides a quality look and is ideal for high resolution graphics. The material is designed for indoor use. SuperSmooth Blockout has a low-curl formula and is compatible for use with solvent, eco-solvent and UV inks. Available in widths from 38" – 86".

SuperSmooth™ PET Blockout - 15 oz.
SuperSmooth™ PET Blockout is a 15 oz. scrimless, blockout banner material. The media is engineered for indoor use and has a non-curl formula providing a lay flat appearance without the use of hemming tapes. The blockout layer in SuperSmooth PET Blockout is made from matted PET, allowing for easier separation during the recycling process. The material is best suited for double-sided signs and banners installed in banner stands. SuperSmooth PET Blockout is compatible for use with solvent, eco-solvent and UV inks. Available in widths from 38" - 126".

DSS Pro 14 oz. Blockout
DSS Pro 14 oz. Blockout is a two-sided, blockout banner material that is smooth and printable on both sides. The refined scrim pattern and dual print surface were engineered for users seeking a media with a large color gamut at high speeds with low ink consumption. DSS Pro 14 oz. has a low-curl formula making it ideal for rollup banner stands, POP and indoor hanging graphics. The material is compatible for use with solvent, eco-solvent, UV and Latex inks. Available in widths from 39" - 80".

SuperSmooth™ PET GreyBack - 13 oz.
SuperSmooth™ PET GreyBack is a 13 oz. non-curling banner with a super smooth print surface and a grey back. The material is ideal for high resolution printing. The grey back-side prevents light transparency and shadowing. SuperSmooth PET GreyBack is ideal for pop-up, roll-up, X displays, and an array of close viewing indoor applications. The material does not require lamination and is available in a matte finish. SuperSmooth PET GreyBack is compatible for use with solvent, eco-solvent and UV inks. Available in widths from 38" - 126".

DSS 13 oz. Pro Blockout
DSS 13 oz. Pro Blockout is a two-sided, blockout banner material with a smooth surface. The material offers a broad color gamut with low ink consumption and is ideal for application where complete opacity is required. The material is compatible with solvent, eco-solvent, UV and screen printing. Available in widths from 38" - 126".

DSS 12 oz. Blockout
DSS 12 oz. Blockout is a 12 oz. smooth, two-sided blockout banner material that delivers similar quality printing results on both sides. DSS 12 oz. Blockout is compatible for use with solvent, eco-solvent, UV and Latex inks. The material is suited for indoor applications where complete opacity is required. With its unique, low-curl formula and lay-flat appearance, DSS 12 oz. is ideal for pop-up or scrolling banner stands, trade show and events graphics, POP, and any hanging banner or sign. Available in widths from 38" - 126".
