See reverse side for application instructions.

*Starred colors are slightly translucent and will take on the color of the garment, especially on black or dark garments.

GlitterFlex® ULTRA

This product can be sublimated

- Creates stunning results with a wide range of colors to choose from
- Real glitter flakes encased in high quality heat sealing adhesive
- Can be sublimated to create your own unique designs
- Pressure-sensitive carrier enables easy weeding and repositioning

Application Instructions

Adheres to cotton, uncoated polyester, fabric blends, wool, linen

60° Blade

Cut this material
in mirror image

330°F - 335°F

Firm, even
pressure

17 - 20
seconds

Peel warm, use
Teflon Sheet and
repress for 2 seconds

Wash inside out,
wash cool,
tumble dry

To sublimite: Heat
sublimation paper on top of
already pressed vinyl at
390°F for 30 seconds

*Paper heat settings may differ

No nylon. We do not recommend this as a bottom layer material. Please note: If material starts to separate from the carrier, smooth it back down before cutting.

COLOR VARIATION: During the manufacturing process, sometimes there is a slight color variation between rolls.

*Instructions for application to moisture-wicking materials:

Damp a cloth with rubbing alcohol (isopropyl alcohol), then rub it into the area on the garment you want to apply your design. Allow it to dry and apply your material. This will allow better adhesion to the garment.

*Instructions for application to dazzle cloth & shiny polyester fabrics:

We highly recommend that you TEST prior to doing large runs. Coated polyester can routinely cause adhesion issues.

***Starred colors are slightly translucent and will take on the color of the garment, especially on black or dark garments.**
