PaperTac™

White Matte

ADHESIVE PAPER FOR VIBRANT PRINTS

PaperTac™ White Matte is a premium coated paper with clear permanent adhesive, ideal for retail promotion, advertising, events, and more. Designed for exceptional print quality across a range of printers—including aqueous, latex/resin, and UV—this versatile media delivers stunning photorealistic prints, making it perfect for short-term applications and eco-conscious projects.

Engineered for durability, PaperTac™ White Matte features water-repellent and scratch-resistant properties, ensuring long-lasting indoor performance. Its clear permanent adhesive allows for easy mounting to rigid card substrates, eliminating the need for a flatbed printer when creating printed boards.

For brands and print professionals seeking a sustainable solution without compromising on quality, PaperTac™ White Matte delivers the perfect balance of performance and eco-responsibility.

TECHNICAL SPECIFICATIONS

PaperTac™ White Matte is a high-quality 140gsm matte-coated paper designed for wide color gamut aqueous printers, and is also suitable for use on latex/resin, and UV printers. This versatile media is ideal for photorealistic prints, short-term advertising, and other eco-friendly applications. Its water-repellent and scratch-resistant properties ensure durability for indoor use.

Featuring a clear permanent adhesive, PaperTac™ can be easily mounted to rigid card substrates, allowing users to create printed boards without the need for a flatbed printer. It is backed by a 100gsm double-sided PE Kraft siliconized release liner, ensuring smooth handling and application.

PaperTac™ is an eco-conscious solution, catering to the growing demand for sustainable print media without compromising on print quality and performance.

PaperTac White Matte is a Best-in-Class solution designed for easy recycling—both the paper face film and adhesive can be recycled together with no visual or adhesion issues. It achieves a 91/100 recyclability score using the CEPI Recyclability Test Method v2 (Oct 2022).

PRODUCT STRUCTURE

Film	Matte Coated Paper
Adhesive	Clear Permanent Water Based (Acrylic)
Release Liner	100 gsm 2 Sided PE Siliconised Kraft

PRODUCT CHARACTERISTICS

Film Thickness	140 gsm
Adhesive Layer	0.6 mil (14µ)
Outdoor Durability	Not Applicable
CEPI Recyclability Score	91/100 - Best In Class
Application Temperature	>41˚F (5˚C)
Service Temperature Range	41˚F to 104˚F (5˚C to 40˚C)
Shelf Life	2 Years
Storage Conditions	59˚F to 72˚F (15˚C to 22˚C); 50 - 55% Relative Humidity
