RED

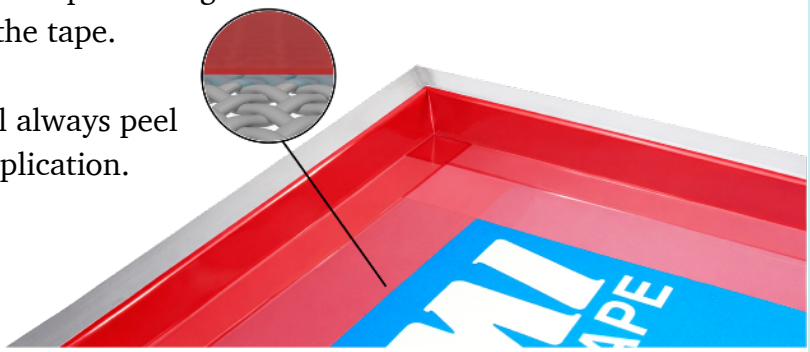

PRODUCT OF PMI TAPE

#560 RED Tape

Advanced Adhesive

Adhesive wets into the mesh preventing ink from seeping under the tape.

PMI #560 RED Tape will always peel cleanly no matter the application.

Available Sizes

2”X60YD (36 Rolls/Case)

3”X60YD (24 Rolls/Case)

4”X60YD (18 Rolls/Case)

Features

Low Profile

PMI #560 RED Tape is 2.8 mils thick so that the squeegee can run over the edge of the tape.

Soft Adhesive

PMI #560 RED Tape has a soft adhesive that wets into the mesh and peels cleanly no matter the application.

Semi-Transparent

PMI #560 RED Tape is semi-transparent so you can see exactly what you are covering up.

Strong Film

PMI #560 Tape uses a strong BOPP film so squeegee pressure won’t tear the tape.

Chemical Resistant

The adhesive is resistant to all screen printing ink types so it won’t become gooey and clog the pores of the mesh.

Long Lasting

Screens can be cataloged with PMI #560 RED Tape on them. PMI #560 RED Tape will peel cleanly after years on the screens.
