Q-COLR™ CONCENTRATED COLORANTS

Q-COLR™ concentrated colorants are specially formulated to provide extremely durable, "fast hiding" bright colors for sign manufacturers and related re-imaging industries. Specially formulated with the highest quality, environmentally friendly pigments to provide an increased concentration level of color. The results are reduced inventory stocking requirements for the user and reduced labor steps during application. **Q-COLR™** concentrated colorants have been formulated to be universally mixed with many of our paint systems providing a complete "family of solutions" for a paint department without the added expense of stocking multiple paint lines. The following paint types are available with **Q-COLR™**.

QHF Environmentally Friendly Product.

Q-COAT UC™ Urethane Coatings for metal substrates. A high performance, 2-component urethane coating providing superior color, gloss retention, durability and ease of use.

Q-COAT TC™ Transparent Coatings for plastic substrates. A specialized air-dry transparent acrylic coating providing smooth, clean, and bright non-mottling colors for backlit signage.

Q-COAT DC™ Display Coatings for plastics, metals or foam type substrates. A single component, fast air-dry coating specially formulated for application on a variety of substrates.

Q-COAT AC™ Air Dry Coatings for "in field" touch ups and repaints. A single component, fast, air-dry coating, excellent for "in field" application. Apply by brush or roller.

Q-PRIM UP™ Primer and Topcoat - All in One. Fast Dry times, very high build for HDU Foams, MDF, 3D Printed Objects, Wood and other similar substrates requiring a very high build coating in minimal application steps.

Q-PRIM AE™ Tintable Epoxy Primer - Tintable to closely match your topcoat color resulting in reduced labor and topcoat paint material costs.

Q-COAT UV™ Coating for plastic or metal substrates that dries quickly and then allows UV printing to be applied on top without loss of adhesion.

Q-COLR™ concentrated colorants consist of only 18 solid colorants, 4 metallic colorants and 2 pearls yet provides a complete range of color options in any gloss level desired.
